

# Making a delivery?

# Major changes

# to Tooley Street

From 30 April 2016 until February 2018 Tooley Street closes to eastbound traffic from Borough High Street to Bermondsey Street as we rebuild London Bridge station - part of the Thameslink Programme.

THAMESLINK  
PROGRAMME

If you make or receive deliveries around the London Bridge area, you may be affected by congestion and increased journey times as work to rebuild London Bridge station continues as part of the Thameslink Programme.

From 30 April 2016 until February 2018 Tooley Street closes to eastbound traffic from Borough High Street to Bermondsey Street.

A diversion route will be in place via Borough High Street, Great Dover Street and Tower Bridge Road.

Allow more time for journeys, especially during the peak hours of 07:00 - 10:00 and 16:00 - 19:00 on weekdays.

You may wish to consider:

- Changing the times of your deliveries to avoid congestion.
- Using alternative routes that avoid the area.
- Signing up to the TfL Freight Bulletin for regular information and advice on issues impacting deliveries in London. Email [freight@tfl.gov.uk](mailto:freight@tfl.gov.uk) to sign up.

For the latest information on how London roads are operating, check before you travel at [www.tfl.gov.uk/trafficnews](http://www.tfl.gov.uk/trafficnews) and follow @TfLTrafficNews (roads) on Twitter.
